Blood Donation Camp Collects 86 Pints at Janajyoti School

BYLINE → By Prakriti Shrestha, Class 12, Secretary, Junior Red Cross Circle

PLACE AND DATE → Bharatpur, 28 November 2026

INTRODUCTION → The Junior Red Cross Circle of Shree Janajyoti Secondary School organised a blood donation camp in the school hall on Friday, 27 November, with the support of the Nepal Red Cross Society, Chitwan.

WHAT HAPPENED → The camp was opened at 9 am by the principal, Mr Bishnu Prasad Aryal, who donated blood first. Teachers, parents, former students and local people took part, as the students themselves are mostly too young to donate. A team of five health workers checked each donor's weight and blood pressure before the donation and served juice and biscuits afterwards. By 3 pm, 86 pints of blood had been collected.

WHO SAID WHAT → “Blood cannot be made in a factory; it can only come from donors like you,” said the coordinator of the Red Cross team, thanking the donors.

CONCLUSION → The camp was a success and raised awareness about blood donation among the students. The Circle plans to hold it every year and to keep a list of volunteer donors for emergencies.
