The Immigration Officer
Immigration New Zealand

Cover letter: Visitor Visa application, 20 January – 15 March 2027

Dear Sir or Madam,

My wife, Kamala, and I are applying together for a Visitor Visa to visit our daughter, Sabina, in Hamilton. We plan to arrive on 20 January 2027 and leave on 15 March 2027, a stay of nearly eight weeks. I am 63 and retired in 2024 after 31 years as a secondary school teacher in Chitwan. My wife is 58 and looks after our home and land. No one else is travelling with us.

Sabina went to New Zealand in 2022 and has worked as a registered nurse at a hospital in Hamilton since March 2024, on an Accredited Employer Work Visa valid until March 2028. She lives with her husband in a rented house in Hamilton, and we have not seen her for three years. We will stay with them for the whole visit. Her letter of invitation, a copy of her visa, her employment letter and the tenancy agreement are attached, with her address and phone number. We plan two short trips with them: four days in Rotorua and Taupō in February, and three days in Wellington in early March. A day-by-day plan is attached.

I will pay for our trip myself. Because we will stay with our daughter, INZ's guide asks for at least NZD 400 a month for each person: NZD 1,600 for the two of us for two months, about NPR 1.33 lakh at about NPR 83 to the dollar. Our return fares are about NPR 4.2 lakh for both, and the reservation is attached. I hold NPR 6.8 lakh in my savings account, into which my pension of NPR 41,000 a month is paid, and a fixed deposit of NPR 12 lakh, as six months of statements and the deposit certificate show. Sabina will also cover our food and local travel while we are with her; her letter and her last three payslips are attached.

Our life is in Chitwan. We own our house in Bharatpur and 12 kattha of farmland in Ratnanagar, which my wife manages with a tenant farmer; the land ownership certificates are attached. Our son, Suman, lives with us with his wife and their two children, and works as an officer at a cooperative in Bharatpur. My mother, who is 86, also lives with us, and our son's family will look after her while we are away. My pension is paid each month into my account in Bharatpur; my retirement letter and pension book are attached. Our home, our land, our son's family and my mother are all here.

Neither of us has travelled outside Nepal except to India, which needs no visa: we went on pilgrimage to Varanasi in 2019. This is our first visa application to any country, and neither of us has been refused a visa.

My wife has high blood pressure, controlled with daily medicine; we will carry enough for the stay and a letter from her doctor. We will buy travel medical insurance for both of us for the whole visit before we travel. Our relationship certificate and land certificates are in Nepali; their English translations, by a translator who is not a relative, are attached with the translator's details.

We will leave New Zealand on 15 March 2027, before our visa ends, and return to Bharatpur. We understand that we may not work in New Zealand, and we will keep to the conditions of our visa. Every figure in this letter matches the documents attached.

Yours sincerely,

Gopal Adhikari
